

Solving Simple Linear Equations (H)

Name: _____

Date: _____

Score: _____

Solve each equation by determining the value of the unknown (letter).

1. $21 = d + 4$

2. $13 = a + 9$

3. $12 \div t = 6$

4. $64 \div s = 4$

5. $b \div 5 = 18$

6. $v - 9 = 3$

7. $15 = 15 \div j$

8. $1 + f = 3$

9. $38 \div c = 2$

10. $15 \times r = 60$

11. $15 = h + 5$

12. $z + 1 = 17$

13. $17 \times m = 68$

14. $19 = 9 + x$

15. $108 = 18 \times y$

16. $10 = k \div 2$

17. $17 = 16 + w$

18. $g - 20 = 18$

19. $15 + n = 24$

20. $19 = 304 \div p$
