

# Commutative Law of Addition (C)

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Write each expression in a different way using the Commutative Law of Addition.

Example:  $4 + 5 = 5 + 4$

1.  $5 + 1 =$

2.  $14 + 4 =$

3.  $11 + 25 =$

4.  $28 + \frac{1}{5} =$

5.  $35 + 22 =$

6.  $3 + \frac{2}{5} =$

7.  $12.3 + 5 =$

8.  $\frac{5}{6} + 1.52 =$

9.  $81 + d =$

10.  $s + 62 =$

11.  $69 + y =$

12.  $c + 79 =$

13.  $z + 72 =$

14.  $m + n =$

15.  $q + a =$

16.  $k + w =$

17.  $55 + \frac{1}{5} + t =$

18.  $91 + f + g =$

19.  $b + j + v + 0.084 =$

20.  $r + h + x + p =$
