

## Standard Form of Linear Equations (E)

Write each equation in standard form. Identify the values for A, B and C.

1.  $9y - 9x = 1$

2.  $x - 7 = y$

3.  $-9x = -3 + 9y$

4.  $8y = 9x + 9$

5.  $y = 7 + 5x$

6.  $-3y - x = -9$

7.  $2x = -7y - 8$

8.  $y + 3x = -9$

9.  $-4x = 9 - 7y$

10.  $-9 = -9x + y$
