

## Standard Form of Linear Equations (F)

Write each equation in standard form. Identify the values for A, B and C.

1.  $-4x = -6y + 6$

2.  $-5y - 8x = -4$

3.  $-9x = y + 5$

4.  $-3 = 6y - 3x$

5.  $2y = -2 - 3x$

6.  $9x = 5 - 6y$

7.  $4 - 7y = 3x$

8.  $9 - 6y = -5x$

9.  $-7x = -2 + 6y$

10.  $-2 + x = -5y$
