

Adding Two Proper Fractions (H)

Name: _____

Date: _____

Score: _____

Calculate each sum.

1. $\frac{2}{3} + \frac{2}{18} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$

2. $\frac{2}{6} + \frac{3}{12} = \underline{\quad} + \underline{\quad} = \underline{\quad}$

3. $\frac{1}{3} + \frac{1}{15} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$

4. $\frac{2}{7} + \frac{9}{14} = \underline{\quad} + \underline{\quad} = \underline{\quad}$

5. $\frac{4}{5} + \frac{2}{15} = \underline{\quad} + \underline{\quad} = \underline{\quad}$

6. $\frac{1}{6} + \frac{1}{2} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$

7. $\frac{4}{8} + \frac{1}{4} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$

8. $\frac{3}{6} + \frac{1}{3} = \underline{\quad} + \underline{\quad} = \underline{\quad}$

9. $\frac{1}{4} + \frac{4}{8} = \underline{\quad} + \underline{\quad} = \underline{\quad} = \underline{\quad}$

10. $\frac{1}{9} + \frac{2}{3} = \underline{\quad} + \underline{\quad} = \underline{\quad}$
