

## Adding Two Proper Fractions (F)

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Score: \_\_\_\_\_

Calculate each sum.

1.  $\frac{4}{9} + \frac{1}{3} = \underline{\quad} + \underline{\quad} = \underline{\quad}$

2.  $\frac{5}{9} + \frac{7}{18} = \underline{\quad} + \underline{\quad} = \underline{\quad}$

3.  $\frac{5}{7} + \frac{3}{14} = \underline{\quad} + \underline{\quad} = \underline{\quad}$

4.  $\frac{1}{9} + \frac{2}{3} = \underline{\quad} + \underline{\quad} = \underline{\quad}$

5.  $\frac{5}{6} + \frac{1}{12} = \underline{\quad} + \underline{\quad} = \underline{\quad}$

6.  $\frac{1}{3} + \frac{1}{12} = \underline{\quad} + \underline{\quad} = \underline{\quad}$

7.  $\frac{1}{4} + \frac{1}{8} = \underline{\quad} + \underline{\quad} = \underline{\quad}$

8.  $\frac{1}{3} + \frac{1}{18} = \underline{\quad} + \underline{\quad} = \underline{\quad}$

9.  $\frac{2}{4} + \frac{5}{16} = \underline{\quad} + \underline{\quad} = \underline{\quad}$

10.  $\frac{5}{8} + \frac{1}{4} = \underline{\quad} + \underline{\quad} = \underline{\quad}$
