

Adding Two Proper Fractions (J)

Name: _____

Date: _____

Score: _____

Calculate each sum.

1. $\frac{4}{9} + \frac{1}{8} = \text{---} + \text{---} = \text{---}$

2. $\frac{1}{4} + \frac{6}{13} = \text{---} + \text{---} = \text{---}$

3. $\frac{1}{2} + \frac{2}{11} = \text{---} + \text{---} = \text{---}$

4. $\frac{1}{9} + \frac{4}{7} = \text{---} + \text{---} = \text{---}$

5. $\frac{1}{6} + \frac{3}{7} = \text{---} + \text{---} = \text{---}$

6. $\frac{1}{8} + \frac{11}{15} = \text{---} + \text{---} = \text{---}$

7. $\frac{1}{6} + \frac{4}{5} = \text{---} + \text{---} = \text{---}$

8. $\frac{2}{9} + \frac{9}{14} = \text{---} + \text{---} = \text{---}$

9. $\frac{1}{9} + \frac{2}{13} = \text{---} + \text{---} = \text{---}$

10. $\frac{2}{9} + \frac{3}{17} = \text{---} + \text{---} = \text{---}$
