

Adding Two Proper Fractions (J)

Name: _____

Date: _____

Score: _____

Calculate each sum.

1. $\frac{1}{7} + \frac{2}{8} = \text{---} + \text{---} = \text{---} = \text{---}$

2. $\frac{4}{7} + \frac{4}{10} = \text{---} + \text{---} = \text{---} = \text{---}$

3. $\frac{2}{4} + \frac{8}{19} = \text{---} + \text{---} = \text{---} = \text{---}$

4. $\frac{2}{7} + \frac{2}{4} = \text{---} + \text{---} = \text{---} = \text{---}$

5. $\frac{4}{7} + \frac{2}{8} = \text{---} + \text{---} = \text{---} = \text{---}$

6. $\frac{3}{6} + \frac{2}{17} = \text{---} + \text{---} = \text{---} = \text{---}$

7. $\frac{3}{6} + \frac{3}{11} = \text{---} + \text{---} = \text{---} = \text{---}$

8. $\frac{2}{6} + \frac{1}{5} = \text{---} + \text{---} = \text{---} = \text{---}$

9. $\frac{2}{6} + \frac{10}{17} = \text{---} + \text{---} = \text{---} = \text{---}$

10. $\frac{2}{4} + \frac{5}{11} = \text{---} + \text{---} = \text{---} = \text{---}$

Adding Two Proper Fractions (J) Answers

Calculate each sum.

$$1. \quad \frac{1}{7} + \frac{2}{8} = \frac{8}{56} + \frac{14}{56} = \frac{22}{56} = \frac{11}{28}$$

$$2. \quad \frac{4}{7} + \frac{4}{10} = \frac{40}{70} + \frac{28}{70} = \frac{68}{70} = \frac{34}{35}$$

$$3. \quad \frac{2}{4} + \frac{8}{19} = \frac{38}{76} + \frac{32}{76} = \frac{70}{76} = \frac{35}{38}$$

$$4. \quad \frac{2}{7} + \frac{2}{4} = \frac{8}{28} + \frac{14}{28} = \frac{22}{28} = \frac{11}{14}$$

$$5. \quad \frac{4}{7} + \frac{2}{8} = \frac{32}{56} + \frac{14}{56} = \frac{46}{56} = \frac{23}{28}$$

$$6. \quad \frac{3}{6} + \frac{2}{17} = \frac{51}{102} + \frac{12}{102} = \frac{63}{102} = \frac{21}{34}$$

$$7. \quad \frac{3}{6} + \frac{3}{11} = \frac{33}{66} + \frac{18}{66} = \frac{51}{66} = \frac{17}{22}$$

$$8. \quad \frac{2}{6} + \frac{1}{5} = \frac{10}{30} + \frac{6}{30} = \frac{16}{30} = \frac{8}{15}$$

$$9. \quad \frac{2}{6} + \frac{10}{17} = \frac{34}{102} + \frac{60}{102} = \frac{94}{102} = \frac{47}{51}$$

$$10. \quad \frac{2}{4} + \frac{5}{11} = \frac{22}{44} + \frac{20}{44} = \frac{42}{44} = \frac{21}{22}$$
