

Adding Proper and Improper Fractions (H)

Name: _____

Date: _____

Score: _____

Calculate each sum.

1. $\frac{2}{3} + \frac{4}{3} = \underline{\quad} = \underline{\quad} =$

2. $\frac{6}{8} + \frac{20}{8} = \underline{\quad} = \underline{\quad} = \underline{\quad}$

3. $\frac{1}{4} + \frac{9}{4} = \underline{\quad} = \underline{\quad} = \underline{\quad}$

4. $\frac{1}{2} + \frac{3}{2} = \underline{\quad} = \underline{\quad} =$

5. $\frac{3}{4} + \frac{5}{4} = \underline{\quad} = \underline{\quad} =$

6. $\frac{1}{3} + \frac{5}{3} = \underline{\quad} = \underline{\quad} =$

7. $\frac{3}{6} + \frac{13}{6} = \underline{\quad} = \underline{\quad} = \underline{\quad}$

8. $\frac{2}{4} + \frac{10}{4} = \underline{\quad} = \underline{\quad} =$

9. $\frac{7}{9} + \frac{17}{9} = \underline{\quad} = \underline{\quad} = \underline{\quad}$

10. $\frac{3}{6} + \frac{15}{6} = \underline{\quad} = \underline{\quad} =$
