

Adding Proper and Improper Fractions (B)

Name: _____

Date: _____

Score: _____

Calculate each sum.

1. $\frac{1}{2} + \frac{10}{6} = \text{---} + \text{---} = \text{---} = \text{---}$

2. $\frac{1}{8} + \frac{3}{2} = \text{---} + \text{---} = \text{---} = \text{---}$

3. $\frac{2}{3} + \frac{14}{9} = \text{---} + \text{---} = \text{---} = \text{---}$

4. $\frac{1}{8} + \frac{9}{4} = \text{---} + \text{---} = \text{---} = \text{---}$

5. $\frac{1}{7} + \frac{29}{14} = \text{---} + \text{---} = \text{---} = \text{---}$

6. $\frac{1}{2} + \frac{13}{12} = \text{---} + \text{---} = \text{---} = \text{---}$

7. $\frac{2}{9} + \frac{7}{3} = \text{---} + \text{---} = \text{---} = \text{---}$

8. $\frac{5}{6} + \frac{21}{12} = \text{---} + \text{---} = \text{---} = \text{---}$

9. $\frac{4}{5} + \frac{13}{10} = \text{---} + \text{---} = \text{---} = \text{---}$

10. $\frac{4}{7} + \frac{15}{14} = \text{---} + \text{---} = \text{---} = \text{---}$

Adding Proper and Improper Fractions (B) Answers

Calculate each sum.

$$1. \quad \frac{1}{2} + \frac{10}{6} = \frac{3}{6} + \frac{10}{6} = \frac{13}{6} = 2\frac{1}{6}$$

$$2. \quad \frac{1}{8} + \frac{3}{2} = \frac{1}{8} + \frac{12}{8} = \frac{13}{8} = 1\frac{5}{8}$$

$$3. \quad \frac{2}{3} + \frac{14}{9} = \frac{6}{9} + \frac{14}{9} = \frac{20}{9} = 2\frac{2}{9}$$

$$4. \quad \frac{1}{8} + \frac{9}{4} = \frac{1}{8} + \frac{18}{8} = \frac{19}{8} = 2\frac{3}{8}$$

$$5. \quad \frac{1}{7} + \frac{29}{14} = \frac{2}{14} + \frac{29}{14} = \frac{31}{14} = 2\frac{3}{14}$$

$$6. \quad \frac{1}{2} + \frac{13}{12} = \frac{6}{12} + \frac{13}{12} = \frac{19}{12} = 1\frac{7}{12}$$

$$7. \quad \frac{2}{9} + \frac{7}{3} = \frac{2}{9} + \frac{21}{9} = \frac{23}{9} = 2\frac{5}{9}$$

$$8. \quad \frac{5}{6} + \frac{21}{12} = \frac{10}{12} + \frac{21}{12} = \frac{31}{12} = 2\frac{7}{12}$$

$$9. \quad \frac{4}{5} + \frac{13}{10} = \frac{8}{10} + \frac{13}{10} = \frac{21}{10} = 2\frac{1}{10}$$

$$10. \quad \frac{4}{7} + \frac{15}{14} = \frac{8}{14} + \frac{15}{14} = \frac{23}{14} = 1\frac{9}{14}$$
