

Dividing Money (G)

Calculate each quotient.

1. $94 \overline{) \$2173.28}$

2. $32 \overline{) \$1513.28}$

3. $41 \overline{) \$2831.87}$

4. $66 \overline{) \$2288.88}$

5. $89 \overline{) \$4441.99}$

6. $50 \overline{) \$3621.00}$

7. $44 \overline{) \$1629.76}$

8. $31 \overline{) \$2271.06}$

9. $17 \overline{) \$1581.34}$

10. If 91 identical video games cost \$8002.54, how much did each video game cost?
