

Dividing Money (B)

Calculate each quotient.

1. $54 \overline{) \$2146.50}$

2. $28 \overline{) \$2261.00}$

3. $30 \overline{) \$1455.00}$

4. $81 \overline{) \$6561.00}$

5. $50 \overline{) \$4555.00}$

6. $63 \overline{) \$2170.35}$

7. $92 \overline{) \$7852.20}$

8. $16 \overline{) \$1544.80}$

9. $43 \overline{) \$2296.20}$

10. If 52 identical backpacks cost \$4607.20, how much did each backpack cost?
