

Dividing Money (F)

Calculate each quotient.

1. $37 \overline{) \$3622.30}$

2. $14 \overline{) \$311.50}$

3. $73 \overline{) \$3372.60}$

4. $62 \overline{) \$2604.00}$

5. $10 \overline{) \$963.50}$

6. $93 \overline{) \$5877.60}$

7. $12 \overline{) \$1155.00}$

8. $11 \overline{) \$210.65}$

9. $63 \overline{) \$5021.10}$

10. If 50 identical figurines cost \$1625.00, how much did each figurine cost?
