

## Dividing Money (B)

Calculate each quotient.

1.  $3 \overline{) \$42.00}$

2.  $2 \overline{) \$4.60}$

3.  $5 \overline{) \$13.50}$

4.  $6 \overline{) \$55.80}$

5.  $6 \overline{) \$90.00}$

6.  $9 \overline{) \$122.40}$

7.  $9 \overline{) \$68.40}$

8.  $4 \overline{) \$25.60}$

9.  $8 \overline{) \$46.40}$

10. If 2 identical backpacks cost \$8.60, how much did each backpack cost?
