

Dividing Money (C)

Calculate each quotient.

1. $94 \overline{) \$8883.00}$

2. $23 \overline{) \$517.50}$

3. $23 \overline{) \$586.50}$

4. $51 \overline{) \$4105.50}$

5. $40 \overline{) \$3060.00}$

6. $72 \overline{) \$1224.00}$

7. $83 \overline{) \$1784.50}$

8. $31 \overline{) \$1488.00}$

9. $87 \overline{) \$6612.00}$

10. If 88 identical toy robots cost \$3916.00, how much did each toy robot cost?
