

Dividing Money (G)

Calculate each quotient.

1. $10 \overline{) \$125.00}$

2. $84 \overline{) \$2394.00}$

3. $32 \overline{) \$1696.00}$

4. $79 \overline{) \$4463.50}$

5. $17 \overline{) \$1241.00}$

6. $71 \overline{) \$3195.00}$

7. $46 \overline{) \$4209.00}$

8. $93 \overline{) \$3999.00}$

9. $84 \overline{) \$7182.00}$

10. If 19 identical video games cost \$798.00, how much did each video game cost?
