

Dividing Money (B)

Calculate each quotient.

1. $42 \overline{) €3785.04}$

2. $17 \overline{) €1354.56}$

3. $18 \overline{) €1267.20}$

4. $69 \overline{) €3121.56}$

5. $56 \overline{) €1711.36}$

6. $65 \overline{) €802.10}$

7. $64 \overline{) €4981.76}$

8. $91 \overline{) €7096.18}$

9. $72 \overline{) €5660.64}$

10. If 38 identical backpacks cost €3038.48, how much did each backpack cost?
