

## Dividing Money (C)

Calculate each quotient.

1.  $30 \overline{) €2604.60}$

2.  $16 \overline{) €1485.12}$

3.  $82 \overline{) €5784.28}$

4.  $72 \overline{) €983.52}$

5.  $34 \overline{) €2728.16}$

6.  $51 \overline{) €795.60}$

7.  $29 \overline{) €1525.40}$

8.  $47 \overline{) €859.16}$

9.  $24 \overline{) €274.56}$

10. If 41 identical toy robots cost €1513.72, how much did each toy robot cost?
