

## Dividing Money (C)

Calculate each quotient.

1.  $12 \overline{) €530.40}$

2.  $49 \overline{) €1019.20}$

3.  $29 \overline{) €1342.70}$

4.  $29 \overline{) €1566.00}$

5.  $62 \overline{) €4997.20}$

6.  $32 \overline{) €2144.00}$

7.  $52 \overline{) €3109.60}$

8.  $69 \overline{) €4685.10}$

9.  $44 \overline{) €3696.00}$

10. If 63 identical toy robots cost €2198.70, how much did each toy robot cost?
