

## Dividing Money (F)

Calculate each quotient.

1.  $28 \overline{) €341.60}$

2.  $67 \overline{) €2948.00}$

3.  $86 \overline{) €2494.00}$

4.  $41 \overline{) €1943.40}$

5.  $90 \overline{) €2412.00}$

6.  $80 \overline{) €1248.00}$

7.  $94 \overline{) €2105.60}$

8.  $62 \overline{) €4178.80}$

9.  $15 \overline{) €711.00}$

10. If 60 identical figurines cost €4116.00, how much did each figurine cost?
