

Multiplying by 1 to 6 (J)

Name: _____

Date: _____

Score: _____

Calculate each product.

$5 \times 5 = \square$

$3 \times 6 = \square$

$3 \times 6 = \square$

$4 \times 5 = \square$

$2 \times 5 = \square$

$5 \times 2 = \square$

$3 \times 2 = \square$

$6 \times 4 = \square$

$2 \times 3 = \square$

$5 \times 3 = \square$

$4 \times 3 = \square$

$1 \times 4 = \square$

$4 \times 3 = \square$

$5 \times 6 = \square$

$1 \times 2 = \square$

$1 \times 2 = \square$

$3 \times 2 = \square$

$2 \times 2 = \square$

$3 \times 4 = \square$

$2 \times 1 = \square$

$3 \times 1 = \square$

$3 \times 5 = \square$

$6 \times 6 = \square$

$1 \times 6 = \square$

$4 \times 2 = \square$

$2 \times 4 = \square$

$1 \times 4 = \square$

$4 \times 1 = \square$

$5 \times 1 = \square$

$1 \times 6 = \square$

$3 \times 3 = \square$

$5 \times 5 = \square$

$6 \times 2 = \square$

$5 \times 4 = \square$

$4 \times 6 = \square$

$3 \times 3 = \square$

$1 \times 5 = \square$

$6 \times 1 = \square$

$5 \times 1 = \square$

$5 \times 1 = \square$

$3 \times 4 = \square$

$4 \times 6 = \square$

$1 \times 5 = \square$

$5 \times 3 = \square$

$4 \times 4 = \square$

$5 \times 3 = \square$

$1 \times 6 = \square$

$4 \times 6 = \square$

$6 \times 3 = \square$

$5 \times 4 = \square$

$3 \times 5 = \square$

$1 \times 3 = \square$

$1 \times 1 = \square$

$2 \times 1 = \square$

$5 \times 2 = \square$

$2 \times 6 = \square$

$1 \times 3 = \square$

$6 \times 4 = \square$

$2 \times 2 = \square$

$4 \times 2 = \square$

$4 \times 5 = \square$

$5 \times 6 = \square$

$2 \times 4 = \square$

$3 \times 4 = \square$

$4 \times 1 = \square$

$2 \times 3 = \square$

$2 \times 6 = \square$

$6 \times 2 = \square$

$6 \times 5 = \square$

$4 \times 4 = \square$

$4 \times 1 = \square$

$2 \times 4 = \square$

$3 \times 3 = \square$

$6 \times 2 = \square$

$4 \times 5 = \square$

$4 \times 3 = \square$

$2 \times 6 = \square$

$1 \times 3 = \square$

$3 \times 1 = \square$

$6 \times 1 = \square$

$1 \times 4 = \square$

$6 \times 3 = \square$

$6 \times 5 = \square$

$4 \times 4 = \square$

$6 \times 6 = \square$

$4 \times 2 = \square$

$5 \times 5 = \square$

$1 \times 5 = \square$

$2 \times 1 = \square$

$2 \times 5 = \square$

$3 \times 2 = \square$

$6 \times 5 = \square$

$6 \times 4 = \square$

$1 \times 1 = \square$

$2 \times 2 = \square$

$3 \times 6 = \square$

$1 \times 2 = \square$

$6 \times 1 = \square$

$5 \times 6 = \square$

$3 \times 5 = \square$
