

## Converting Various Bases to Octal (G)

Write each number as a octal number.

1. Hexadecimal = 4  
Octal =

2. Hexadecimal = 13  
Octal =

3. Binary = 10000100  
Octal =

4. Decimal = 305  
Octal =

5. Binary = 100100100  
Octal =

6. Binary = 1001001100  
Octal =

7. Decimal = 194  
Octal =

8. Hexadecimal = 102  
Octal =

9. Binary = 10010111011110  
Octal =

10. Binary = 1010000100000  
Octal =
